About QatarEnergy

قـطر للطاقة
QatarEnergy

QatarEnergy is the state-owned energy company of the State of Qatar, entrusted with the development and stewardship of the nation's vast oil and natural gas resources. As one of the most recognized and influential energy corporations globally, QatarEnergy is fully integrated across the entire energy value chain — from exploration and production to processing, refining, marketing, and global distribution.

Founded in 1974 as Qatar Petroleum, the company was rebranded to QatarEnergy in October 2021, reflecting a broader strategic commitment to sustainability and the energy transition, while staying true to its roots as a global leader in hydrocarbon-based energy.

QatarEnergy's mission is to responsibly and sustainably unlock the potential of Qatar's natural resources to power progress, enrich lives, and contribute to a secure and stable global energy future. The organization is deeply committed to operational excellence, environmental stewardship, technological innovation, and human capital development.

Its vision is to become one of the best national energy companies in the world, rooted in values of integrity, transparency, and corporate responsibility.

GLOBAL PRESENCE

QatarEnergy has expanded well beyond its national borders. The company maintains upstream and exploration interests in more than 20 countries, including Brazil, Mexico, Argentina, South Africa, Egypt, Namibia, Guyana, and Cyprus. Its international strategy is built on forming long-term partnerships that create mutual value.

NATIONAL CONTRIBUTION

QatarEnergy plays a central role in Qatar's economy. It contributes significantly to the nation's GDP, public infrastructure funding, employment, education, and social development. The company also supports a range of community initiatives and national workforce development programs, aligned with the Emirate's long-term development goals.

COMMITMENT TO EXCELLENCE

QatarEnergy is driven by a culture of performance, innovation, and excellence. Its people are its greatest asset — a diverse and talented workforce committed to driving energy progress, enhancing value for partners, and upholding the highest standards of safety, integrity, and environmental responsibility.

Core Business Areas:

- Exploration & Production
- Manages onshore and offshore oil and gas fields.
- Operates alongside international partners like ExxonMobil, Shell, TotalEnergies, Chevron, and ConocoPhillips.

Liquefied Natural Gas (LNG):

- Qatar is the world's largest LNG exporter, with QatarEnergy at the helm via its majority stake in Qatargas and the North Field Expansion Project.

Refining & Petrochemicals:

- Owns and operates refining units and petrochemical plants, including QAPCO, QAFCO, Q-Chem, and Ras Laffan Condensate Splitter.

Gas-to-Liquids (GTL):

- Owns a stake in the Pearl GTL plant, the world's largest GTL facility (in partnership with Shell).

Marketing & Trading:

- Through QatarEnergy LNG and QatarEnergy Trading, the company markets crude oil, LNG, petroleum products, and petrochemicals globally.

Renewables & Sustainability

- Investing in solar, blue ammonia, and hydrogen projects to support Qatar's National Vision 2030 and the energy transition.

Key Subsidiaries & Joint Ventures:

- **Qatargas** – LNG production and export
- **QAFCO** – Fertilizers (in partnership with Yara International)
- **QAPCO, Q-Chem, QVC** – Petrochemicals
- **Barzan Gas Company** – Gas production for domestic use
- **QatarEnergy Trading** – Global trading arm
- **North Oil Company** – Joint venture with TotalEnergies for Al-Shaheen oil field
- **QatarEnergy Renewable Solutions** – Sustainability-focused arm

LEADERSHIP FEATURE

H.H. Sheikh Abdullah bin Hamad Al Thani

The Deputy Amir
Chairman of the Board

His Highness was appointed Deputy Amir of the State of Qatar in 2014, as issued by an Amiri Order by His Highness Sheikh Tamim Bin Hamad Al Thani, the Amir of the State of Qatar. He attended Georgetown University with a Bachelor of Science in Foreign Service. He serves as Chairman of the Board of Trustees at Qatar University, General Supervisor of Private Amiri Diwan, Vice Chairman of the Supreme Council for Economic Affairs and Investment and Chairman of the Board of Directors of Qatar Investment Authority.

H.E. Saad Sherida Al Kaabi

Vice Chairman, Managing Director, President and CEO

Saad Sherida Al Kaabi serves as Qatar's Minister of State for Energy Affairs and Vice Chairman, Managing Director, President and CEO of QatarEnergy. Appointed President and CEO in 2014 and Minister in 2018, he oversees the company's strategy, operations and international growth, including Qatar's LNG expansion. He joined QatarEnergy in 1986 as a sponsored student and graduated from Pennsylvania State University in 1991 with a degree in Petroleum and Natural Gas Engineering. His career spans reservoir engineering, upstream development and senior leadership, with a central role in developing Qatar's natural gas resources.

H.E Ali bin Ahmed Al-Kuwari

Minister of Finance and Member of the Board

H.E. served as the Group Chief Executive Officer of Qatar National Bank from 2013 to 2018. His Excellency has more than 30 years of experience in the banking and financial sector in Qatar. Other Board Memberships: Member of the Supreme Council for Economic Affairs and Investment; Katara Hospitality; Qatar Stock Exchange; Qatar Development Bank; Masraf Al Rayan; Investment Promotion Agency; Qatar Financial Center Authority; Qatar Investment Authority; Qatar University.

H.E. Sheikh Mohammed Bin Hamad Bin Qassim Al-Thani

Minister of Commerce & Industry Education
Member of the Board

His Excellency Sheikh Mohammed Bin Hamad Bin Qassim Al-Thani was appointed Minister of Commerce & Industry in October 2021. H.E. currently holds several high positions in the State of Qatar, including as a member of the Supreme Council for Economic Affairs & Investment, Chairman of the Boards of Directors of Al Rayan Bank, Qatar Stock Exchange, the Advisory Board of the Investment Promotion Agency and the Qatar Financial Center Authority. H.E. is also the Deputy-Chairman of the Board of Directors of Qatar Development Bank and a Member of the Boards of Directors of the Qatar Investment Authority and Qatar Energy.Throughout his extensive career, H.E. has held several other key supervisory positions. From March 2018 until October 2021, H.E. was Deputy-Governor and Vice-Chairman of the Board of Directors of Qatar Central Bank and Deputy Chairman of the QFC Regulatory Authority. From November 2018 until October 2021, H.E. also served as the Chairman of the Board of Directors of the Qatar Financial Markets Authority.Previously, H.E. was Director of Risk Management at Qatar Central Bank and also served for five years as the Secretary of the Personal Representative of His Highness the Amir for follow-up affairs.

Mr. Nasser Khalil Al Jaidah

Member of the Board

Nasser Khalil Al Jaidah joined Qatar Petroleum in 1977 as well-site Petroleum Engineer. During his 40 years of service at QatarEnergy, he was involved directly in the major transformation of the oil and gas industry in both Upstream and Downstream Projects in Qatar. He was the Chief Executive Officer of QatarEnergy International until 2015. Other Board Memberships Qatar Water & Electricity Company; Qatar Free Zone Authority; Advisory Board of the State of Qatar.

H.E. Sheikh Khalid bin Khalifa bin Jassim Al Thani

Member of the Board

Sheikh Khalid bin Khalifa Al Thani joined QatarEnergy in 1991. He held different positions in the Company including Business Development Manager of Mesaieed Industrial City and Director of Ras Laffan before taking over as the Chief Executive Officer of Qatargas in 2010. He also serves as Vice Chairman and CEO of the Qatargas group of companies. He spearheaded the successful integration of the State of Qatar's two liquefied natural gas (LNG) giants – Qatargas and RasGas – thereby creating the largest producer of LNG in the world with an annual production capacity of 77 million tonnes per annum.

Ahmad Saif Al Sulaiti

Member of the Board

Ahmad Saif Al Sulaiti serves as a Board Member of QatarEnergy and Senior Advisor in the Office of its President and CEO. Formerly QatarEnergy's Executive Vice President for Operations, he brings extensive experience in oil and gas operations, field development and petrochemicals. He also serves as Vice Chairman of Nakilat.

Abdulaziz Jassim Al Muftah

Member of the Board

Abdulaziz Jassim Al Muftah is QatarEnergy's former Executive Vice President for Industrial Cities, retiring from the executive role in February 2026 after four decades of service. He joined the company in 1986 and held senior engineering, project management and industrial city leadership positions, including Director of Ras Laffan Industrial City.

Abdulrahman Ahmad Al Shaibi

Member of the Board

Abdulrahman Ahmad Al Shaibi is QatarEnergy's former Executive Vice President for Finance and Planning, retiring from the executive role in February 2026 after 37 years of service. He joined the company in 1989 and progressed through senior corporate and project finance positions, contributing to the financing of Qatar's LNG development and broader energy expansion.

Executive Management

Essa Matar Al-Kuwari
Executive Vice President, Operations

Essa Matar Al-Kuwari joined QatarEnergy in 1999 and progressed through technical and leadership positions before becoming Executive Vice President for Operations. His experience includes responsibilities across joint ventures and management committees. He holds a bachelor's degree in Chemical Engineering from Qatar University and a postgraduate qualification in business and management from the United Kingdom.

Khalid Mohammed Al-Hitmi
Executive Vice President, Subsurface Development and Exploration

Khalid Mohammed Al-Hitmi brings extensive experience in drilling, reservoir management, production operations and North Field development. His previous roles include Manager of North Field Development and Chief Operating Officer for Subsurface at Qatargas. He holds a Petroleum Engineering degree from King Fahd University of Petroleum and Minerals and an MBA from the University of Hull.

Jassim Mohd Al-Marzouqi
Executive Vice President, Commercial and Business Development

Jassim Mohd Al-Marzouqi joined QatarEnergy in 2007, holding commercial positions across upstream oil, gas and LNG projects. He previously worked in commercial and planning roles at Qatargas and began his career with ExxonMobil in Doha and Houston. He holds bachelor's and master's degrees in Electrical Engineering from Arizona State University.

Mohamed Salem Al-Marri
Executive Vice President, Projects, Engineering and Procurement Services

Mohamed Salem Al-Marri joined QatarEnergy in 1991 after graduating in Natural Gas Engineering. His career includes engineering and project responsibilities across LNG, gas-to-liquids, pipelines and oilfield developments. Previously Manager of Oil and Gas Surface Development, he was appointed Executive Vice President for Projects, Engineering and Procurement Services in 2014.

Mohammed Khalid Al-Ghanim
Executive Vice President, Finance and Planning

Mohammed Khalid Al-Ghanim was named successor to Abdulrahman Ahmad Al Shaibi as QatarEnergy's finance and planning leader in February 2026. He brings experience in corporate finance and strategic planning within the company. Before this appointment, he held several leadership positions, most recently Manager of Corporate Finance and Controls.

Abdulaziz Mohammed Al-Mannai
Executive Vice President, Human Capital

Abdulaziz Mohammed Al-Mannai has served as QatarEnergy's Executive Vice President for Human Capital since 2014, leading its people functions and providing oversight of information technology. An aeronautical engineering graduate, he previously held human resources and LNG expansion leadership roles at QatarEnergy LNG. His board responsibilities include Industries Qatar and Qatar National Bank.

Homoud Fahad Al-Qahtani
Executive Vice President, Industrial Cities

Homoud Fahad Al-Qahtani succeeded Abdulaziz Jassim Al Muftah as QatarEnergy's Executive Vice President for Industrial Cities in February 2026. At his appointment, he brought 29 years of experience in industrial cities and ports management and operations. His previous leadership roles included Manager of Mesaieed and Dukhan Concession Area.

Abdulla Ahmad Al-Hussaini
Executive Vice President, Marketing

Abdulla Ahmad Al-Hussaini oversees the sales, trading and shipping of commodities produced and exported by QatarEnergy and its Qatar-based ventures. He joined QatarEnergy in 2016 after holding LNG marketing roles at Qatargas, including Marketing Director. He chairs QatarEnergy Trading and holds a degree in Business Studies from the University of Texas at Arlington.

Ahmad Saeed Al-Amoodi
Executive Vice President – Surface Development and Sustainability

Ahmad Saeed Al-Amoodi has served as QatarEnergy's Executive Vice President for Surface Development and Sustainability since February 2018. His experience spans engineering and project development in Qatar and international markets, including LNG and petrochemicals. He holds a degree in Electrical Engineering from New Mexico State University.

Nabeel Mohammed Al-Buenain
Executive Vice President, HSE and Business Services

Nabeel Mohammed Al-Buenain brings leadership experience across oil and gas, ports, construction and real estate. He began his career as a mechanical engineer on QatarEnergy's Dukhan Gas Recycle Project and later held senior roles at Qatalum and Qatari Diar. He holds a Mechanical Engineering degree from Lamar University in the United States.

Mohammed Essa Al-Mannai
General Counsel and Board Secretary

Mohammed Essa Al-Mannai joined QatarEnergy in 2007 as counsel in the Legal Department's Projects division and now serves as General Counsel and Board Secretary. He holds an honours law degree from the University of Liverpool and completed the Bar Vocational Course at the College of Law in London.

Bader Mubarak Al-Khalifa
Corporate Manager, Internal Audit

Bader Mubarak Al-Khalifa serves as QatarEnergy's Corporate Manager for Internal Audit and Chief Audit Executive. He also serves on Nakilat's Board of Directors. His qualifications include an Executive Master's in Leadership from Georgetown University and a bachelor's degree in Accounting from Qatar University.

Ali Nasser Telfat
Corporate Manager, Office of the President and CEO

Ali Nasser Telfat joined QatarEnergy in 1990 as a telecommunications engineer and subsequently held leadership roles in field support, corporate training and communications. He manages the Office of QatarEnergy's President and CEO and also directs the Office of the Minister of State for Energy Affairs. He holds an Electrical Engineering degree from Tri-State University.

H.E. Minister Saad Sherida Al-Kaabi patronizes Gulf Helicopters Company's reveal of its new corporate identity to become Global Helicopter Company

November 16, 2026

DOHA, Qatar November 16, 2026 – His Excellency Mr. Saad Sherida Al-Kaabi, the Minister of State for Energy Affairs, the President and CEO of QatarEnergy, patronized today a special event to launch the new corporate identity of Gulf Helicopters Company, which has now become "Global Helicopter Company".

The event highlighted the company's rich history and its quest for a future without boundaries and with a greater commitment to safety and reliability. The rebrand is a reflection of a broader strategy for the company's next phase of growth, which is guided by a new vision: "To be the trusted global leader in safe and advanced vertical aviation solutions."

Commenting on this occasion, His Excellency Minister Saad Sherida Al-Kaabi said: "Since its incorporation to meet the demands of Qatar's Oil and Gas Industry in 1970, Gulf Helicopters Company has grown into a major aviation provider in the region and beyond. By embracing its new identity and role as Global Helicopter Company, we look forward to many more decades of great achievements and successes."

The new identity commits Global Helicopter Company to deliver sustainable impact for its customers and the communities it serves, and to renewing its fleet with newer, more capable and more efficient aircraft.

Global Helicopter Company operates a fleet of more than 60 aircraft in more than 10 countries with over one million flight hours. It is a wholly owned subsidiary of Gulf International Services (GIS), in which QatarEnergy is the golden shareholder.

QatarEnergy achieves a new benchmark with OGMP 2.0 Gold Standard Recognition

November 10, 2026

DOHA, Qatar November 10, 2026 – QatarEnergy has achieved the Oil and Gas Methane Partnership (OGMP) 2.0 Gold Standard Reporting status for the 2025 data year. The OGMP 2.0 framework, managed by the United Nations Environmental Program's International Methane Emissions Observatory, is the premier measurement-based reporting and mitigation framework for methane emissions in the oil and gas sector. Gold Standard is also the highest recognition that exists under this framework.

Achieving OGMP 2.0 Gold Standard Reporting status reflects the significant progress made by QatarEnergy in its methane emissions measurement, reporting, and transparency, across both its operated and non-operated assets. It also demonstrates QatarEnergy's robust approach to methane management, including its adoption of comprehensive measurement-based reporting, and credible implementation plans, underscoring the quality, robustness, transparency, and completeness of QatarEnergy's methane emissions reporting.

Commenting on this occasion, His Excellency Mr. Saad Sherida Al-Kaabi, the Minister of State for Energy Affairs, the President and CEO of QatarEnergy, said: "Obtaining OGMP 2.0 Gold Standard Reporting status is an important milestone in QatarEnergy's methane emissions management efforts. This accomplishment reflects our commitment to transparency, continuous improvement, and the application of advanced measurement technologies to manage methane emissions across our operations."

His Excellency added: "I would like to express sincere appreciation to all teams at QatarEnergy and the joint ventures involved in the planning, execution, measurement, reporting, and coordination of activities that contributed to this success, which highlights the commitment and professionalism in advancing environmental performance and supporting QatarEnergy's sustainability objectives."

As QatarEnergy continues on its methane management journey, it will look to build upon the lessons learned and progress achieved through the OGMP 2.0 program, further strengthen its emissions measurement capabilities, implement targeted mitigation initiatives, and pursue continuous improvement when it comes to environmental stewardship.

QatarEnergy acquires interest in Namibian offshore exploration license

November 9, 2026

QatarEnergy entered into an agreement to acquire a participating interest in an offshore exploration block in the Republic of Namibia from Chevron Namibia Exploration II Limited, a subsidiary of Chevron.

Under the terms of the agreement, which is subject to customary regulatory approvals, QatarEnergy will acquire a 25% interest in Petroleum Exploration License 0082 (PEL82), comprising blocks 2112B and 2212A. Upon completion of the transaction, Chevron (the Operator) will hold a 55% interest, while Namcor E&P and Custos Energy will each hold a 10% interest.

Commenting on this occasion, His Excellency Mr. Saad Sherida Al-Kaabi, the Minister of State for Energy Affairs, the President and CEO of QatarEnergy, said: "We are pleased to further strengthen our relations with Chevron through this agreement, and to expand and diversify our footprint in Namibia. We would like to thank the Namibian authorities for their cooperation and support, and we look forward to working with our partners to progress exploration activities and achieve positive results for the benefit of all stakeholders."

The PEL82 exploration license covers an area of approximately 11,444 square kilometers offshore Namibia, in water depths ranging from 350 to 2,300 meters.

QatarEnergy reaffirms support of Al-Attiyah Foundation and its contributions to enrich the global energy discussion

November 3, 2026

QatarEnergy has extended its membership of the Abdullah bin Hamad Al-Attiyah International Foundation for Energy and Sustainable Development (Al-Attiyah Foundation), providing renewed support to its vision and mission.

The membership extension agreement was signed at QatarEnergy's Headquarters by His Excellency Mr. Saad Sherida Al-Kaabi, the Minister of State for Energy Affairs, the President and CEO of QatarEnergy, and Dr. Saud bin Abdullah Al-Attiyah, Chairman of the Al-Attiyah Foundation's Board of Trustees.

In remarks on this occasion, His Excellency Minister Al-Kaabi, said: "We are pleased to take this opportunity to reaffirm our support of the Abdullah bin Hamad Al-Attiyah Foundation's contributions to enrich the global energy discussion and its commitment to research, knowledge sharing, and informed dialogue on the challenges shaping the global energy industry and sustainable development. Our continued and active support to fulfilling its mission and vision is driven by our appreciation of its role in promoting dialogue and recognition of it's the legacy of its founder, His Excellency the late Abdullah bin Hamad Al-Attiyah."

Established in 2015, the Abdullah bin Hamad Al-Attiyah International Foundation for Energy and Sustainable Development is a non-profit organization that seeks to contribute to industry knowledge and encourage exchanges between business leaders, researchers, and policymakers.

QatarEnergy to purchase 3 MTPA of U.S. LNG from Woodside Energy for 20 years

October 29, 2026

QatarEnergy entered into a long-term Sale and Purchase Agreement (SPA) with Woodside Energy (LA) Investments LLC (Woodside Energy) for the purchase of 3 million tons per annum (MTPA) of LNG from the Louisiana LNG project, located along the United States Gulf Coast, and currently under construction.

Under the terms of the SPA, deliveries will be on an FOB basis and are anticipated to commence in 2030 for 20 years. The signing of the agreement was celebrated at a ceremony attended by His Excellency Mr. Saad Sherida Al-Kaabi, the Minister of State for Energy Affairs, the President and CEO of QatarEnergy, and Ms. Liz Westcott, the CEO and Managing Director of Woodside Energy. Commenting on this occasion, His Excellency Minister Al-Kaabi said, "We are pleased to further enhance our global supply and trading portfolio with another long-term purchase of LNG from the U.S. These additional volumes make QatarEnergy the largest buyer of LNG from the U.S., and place us in a stronger position to meet the global growing needs for LNG. Our Golden Pass LNG project and our expanding portfolio of U.S. LNG purchases reinforce QatarEnergy's leadership in the LNG industry and support our long-term growth and diversification strategy."

The SPA reflects QatarEnergy's continued confidence in the long-term role of LNG in the global energy mix and its strategy to further develop a flexible, diversified and globally competitive LNG portfolio.

QatarEnergy signs long-term agreements to purchase 4 MTPA of U.S. LNG from Cheniere through 2054

October 22, 2026

QatarEnergy signed two long-term Sale and Purchase Agreements (SPAs) with Cheniere for the purchase of up to 4 million tons per annum (MTPA) of LNG from Cheniere's Sabine Pass and Corpus Christi facilities in the States of Louisiana and Texas respectively, located along the United States Gulf Coast.

Under the terms of the SPAs, deliveries will be on an FOB basis and are anticipated to commence in 2031 and continue through 2054. The SPAs were signed by His Excellency Mr. Saad Sherida Al-Kaabi, the Minister of State for Energy Affairs, the President and CEO of QatarEnergy, and Mr. Jack Fusco, Chairman, President and CEO of Cheniere Energy, Inc.

Commenting on the occasion, His Excellency Minister Al-Kaabi said, "The signing of these two SPAs marks an important milestone in our LNG strategy. This major long-term purchase will expand and diversify our global LNG portfolio and advance our ability to meet the evolving requirements of the market. The additional volumes will complement QatarEnergy's existing LNG supplies, enhance our supply and trading portfolio, and strengthen our ability to serve customers across the globe."
The two SPAs reflect QatarEnergy's continued confidence in the long-term role of LNG in the global energy mix and its efforts to further develop a flexible, diversified, and globally competitive LNG portfolio.

H.E. Minister Saad Sherida Al-Kaabi tours QatarEnergy's pavilion at the WPC exhibition in Riyadh

October 12, 2026

His Excellency Mr. Saad Sherida Al-Kaabi, the Minister of State for Energy Affairs, the President and CEO of QatarEnergy, toured QatarEnergy's pavilion at the World Petroleum Congress (WPC) conference and exhibition currently taking place in Riyadh, the Kingdom of Saudi Arabia. His Excellency walked through the pavilion's multimedia displays highlighting ongoing LNG and other energy projects as well as future initiatives designed to help meet the world's growing needs, all designed to convey QatarEnergy's vision and achievements.

The Pavilion includes audiovisual and physical displays of various projects, operations, and initiatives including the North Field Expansion Project, Golden Pass LNG, Al-Shaheen oil field development, various upstream investments, downstream projects like Ras Laffan Petrochemicals and Golden Triangle Petrochemicals, and crucial products like Helium and Urea.

The Pavilion also highlights QatarEnergy's newly built state-of-the-art LNG vessels, a future investment undertaken as part of the world's largest ever shipbuilding program, as well as its sustainability drive bringing together elements and initiatives like solar energy, carbon capture and storage, and turtle conservation, which recognizes that protecting biodiversity is an essential part of QatarEnergy's sustainability efforts.

QatarEnergy is a strategic sponsor of the WPC conference and exhibition, which are organized every three years by the World Petroleum Council.

H.E. Minister Saad Sherida Al-Kaabi attends WPC Energy Congress in Riyadh

October 12, 2026

His Excellency Mr. Saad Sherida Al-Kaabi, the Minister of State for Energy Affairs, the President and CEO of QatarEnergy, attended the 25th WPC Energy Congress, which was opened in the Saudi capital, Riyadh, by His Royal Highness Prince Abdulaziz bin Salman Al Saud, the Minister of Energy of the Kingdom of Saudi Arabia.

The conference and the accompanying exhibition, held 11-15 October, are part of the Riyadh Energy Week. The event is used by global leaders, ministers, and industry executives as a central stage for high-level dialogue and strategic cooperation in the energy industry.

The WPC Energy Congress program provides a neutral platform for debate on energy security, supply resilience, responsible production, and the integration of lower-carbon systems, while recognizing the continued role of oil and gas in energy access and economic development. It includes ministerial dialogues focused on the future of energy and the perspectives on global oil and gas markets.

H.E. Minister Saad Sherida Al-Kaabi: "We need to keep energy above politics"

October 11, 2026

In remarks at the 17th International Energy Forum Ministerial Meeting
"Energy security must unite us, not divide us; it must be protected, not weaponized"

DOHA, Qatar • 11 October 2026 – His Excellency Mr. Saad Sherida Al-Kaabi, the Minister of State for Energy Affairs, the President and CEO of QatarEnergy, called for a new world energy order in which energy is kept above politics and is never made a victim or target of conflict. His Excellency made the call during the 17th International Energy Forum Ministerial Meeting in Riyadh, convened under the theme "Energy Security - A Shared Responsibility: Market Fundamentals, Supply Chain Resilience, and the New Dynamics of Demand and Supply." The meeting was opened in the Saudi capital, Riyadh, by His Royal Highness Prince Abdulaziz bin Salman Al Saud, the Minister of Energy of the Kingdom of Saudi Arabia, and with the participation of Energy Ministers, invited government representatives, Industry Leaders, and International Organizations."

Minister Al-Kaabi opened his remarks by expressing the State of Qatar's "unwavering solidarity with the Kingdom of Saudi Arabia its leadership and people during these times."

"Furthermore," His Excellency added, "I offer my sincere condolences to the families of those killed in these horrible attacks and wish a speedy recovery to the injured."

H.E. Minister Al-Kaabi said the conflict in our region has caused what is, "by far, the world's worst energy crisis," affecting the flow of around 20% of the world's hydrocarbon supplies. He added that many regional energy assets across the region had been targeted, causing tens of billions of dollars in damage and severe volatility in global markets.

"If there is one lesson we have learned from the past few months, it is that energy security, as critical as it is to the global economy, remains highly vulnerable and inseparable from geopolitical security," H.E. Al-Kaabi added. His Excellency also highlighted the wider human consequences, noting that a billion people still lack access to electricity and that approximately four billion people depend on food produced using manufactured fertilizers. He stated that "the impact on all those lives should remind us of our shared responsibility to safeguard energy security, protect the free flow of energy, and keep energy above politics and conflicts." H.E. Minister Al-Kaabi called on the Forum to explore every possible avenue to protect energy infrastructure during times of conflict, saying: "It is a real problem that energy infrastructure has become both an economic asset and a strategic military target. Energy security must unite us, not divide us. It must be protected, not weaponized."

QatarEnergy wins seven Brazil offshore exploration licenses

October 8, 2026

QatarEnergy, in a consortium with Petrobras, won seven exploration blocks in the 6th Concession Open Acreage Bid Round organized by Brazil's National Agency of Petroleum, Natural Gas, and Biofuels (ANP).

The awarded exploration blocks (CE-M-471, CE-M-473, CE-M-475, CE-M-477, CE-M-537, CE-M-539 and CE-M-665) are located in the Ceará Basin, along the northeastern Equatorial Margin of Brazil. QatarEnergy will hold a 30% participating interest, alongside operator Petrobras, which will hold 70%.

Commenting on this occasion, His Excellency Mr. Saad Sherida Al-Kaabi, the Minister of State for Energy Affairs, the President and CEO of QatarEnergy, said: "We are pleased with the success of these bids, which add prospective acreage to our upstream portfolio in Brazil. I would like to thank our valued partner Petrobras, with whom we worked closely on this partnership, as well as ANP and the Brazilian authorities for their valuable support. We look forward to further strengthening our partnership, and to work with all stakeholders for a successful exploration."

The concession contracts further strengthen and expand QatarEnergy's upstream position in Brazil and are expected to be signed in the first half of 2027.

The Equatorial Margin blocks have a combined area of approximately 4,700 square kilometers and are situated in water depths of about 2,000-3,600 meters off the northeastern coast of Brazil in the Ceará Basin.
