About Gulf Intelligence

“We Facilitate Knowledge Exchange”

Gulf Intelligence (GI) is a leading strategic communications consulting firm in the Middle East focused on advancing the thought leadership profile and posture of clients as they navigate the challenges and opportunities presented by the great energy transition and a pathway to Net Zero. The UAE-based agency uses more than 13 years of operational experience in the Gulf to offer trusted, fully compliant, and strategic advice. The GI consultancy provides expert and hands-on assistance over that last mile of connectivity to international clients looking for opportunities or seeking solutions in the region, as well as supporting National stakeholders expand their global engagement and footprint.

The **Global Energy Outlook Forum** was founded 14 years ago in the UAE for the purpose of convening the country’s leading energy stakeholders in Abu Dhabi at the start of each year to look into the crystal ball for an Outlook on the opportunities & challenges likely to face the oil and gas industry over the Year ahead. On the occasion of the 14th edition of the Forum, we are navigating the unique lessons learnt during the Covid-19 pandemic on how to produce a truly global event without leaving home. In the past, we would ask thought leaders from around the world to travel to the UAE to share their insights on site at NYU Abu Dhabi. But now, on Jan. 10th, we will leverage technology to travel virtually around the globe for an on-the-ground perspective of the critical issues shaping the Energy Outlook in 2024 and beyond.
