TOP 30 FEMALE ENERGY MARKET ANALYSTS

PROFILES

The question emerging for Q2 is whether \$85 will be a floor or a ceiling?

Generally, the fitter the individual, the lower the resting heart rate. The average resting heart rate of adult humans, ages 18 to 25, is about seventy beats per minute (bpm). Olympic athletes usually have lower resting heart rates, some under 50 bpm. A polar bear has a resting heart rate of about 46 bpm.

Brent crude oil appears to currently have a resting rate of \$80 a barrel. That is what it averaged last year, and now at the end of the first quarter 2024 it would seem to still be well anchored in that zone regardless of or perhaps because of all the background drama of supply cuts, geopolitical risks and better than expected economic performance as all the printing presses have ensured we no longer have to endure pesky irritants like recessions.

The sum of all the parts kept volatility at bay in Q1. However, an athlete's heart rate can increase by up to 200 beats per minute during training or competition. In the oil markets we would call that volatility. The forces that screamed and ricocheted in the background over the last three-months, which the oil market mostly ignored, may start to creep into shake up the snow globe in the second quarter.

We have seen early signs of that as geopolitical dramas have started to kick the door down as Brent broke out of the stable tight band of recent months to close repeatedly above \$85 a barrel over the last week as Russian refineries were hit by Ukrainian drone strikes and the IEA once again revised up its 2024 demand forecasts. The question emerging for Q2 is whether \$85 will be a floor or a ceiling? -- tune into the Daily Energy Markets Podcast over the coming months to hear valuable insights each day **from the world's leading female analysts**.

Dyala Sabbagh
Editor-in-Chief
Gulf Intelligence

Dyala Sabbagh

Editor-in-Chief
Gulf Intelligence

An Award Winning journalist who has led editorial coverage of the Middle East for some of the world's leading media companies, including Dow Jones, Wall Street Journal, BBC, CNBC and now Gulf Intelligence. Her first foray into journalism was as a beat reporter on the Markets desk at Dow Jones Newswires/ Wall Street Journal in London through the mid to late '90s. After a few years of chasing energy ministers across the world as the oil price collapsed to under \$10 a barrel, Dyala was appointed Middle East Bureau Chief of Dow Jones/WSJ in 1999. She managed regional coverage of the GCC, with a focus on OPEC and the energy sector. In the mid-2000's, Dyala transitioned into broadcast television as an editor/anchor of the inaugural CNBC Middle East signature weekly and monthly business programs. Dyala was later headhunted by the BBC to take up a similar role as the anchor of their Middle East programming from the Gulf. During both her print and broadcast career, Dyala has interviewed a cross-section of international business and political leaders, including U.S. President Bill Clinton, Secretary of State James Baker, Energy Secretary Bill Richardson, French President Jacques Chirac, Azerbaijan's President Haidar Aliyev, Lebanon's Prime Minister Fuad Siniora, Queen Rania of Jordan and Sir Bob Geldof, along with most Middle East Energy and Finance ministers over the last 25 years. In 2009, Dyala became a Founding Partner and Editor in Chief of Gulf Intelligence, which has grown into the leading home-grown energy publisher & consultancy in the Middle East. Dyala attained a BSc. in Economics and History from the University of London and an MA in Arab Studies from the School of Foreign Service, Georgetown University, Washington D.C.

TOP 30 FEMALE ENERGY MARKET ANALYSTS

Amena Bakr
Senior Research Analyst
Energy Intelligence

As a Senior Research Analyst based in Dubai, Amena's expertise supports the Oil Markets Service, where she leads analysis and client engagement on oil market analysis, OPEC policy, political trends and risk assessments in the Middle East and Gulf Arab region. Key focus areas of Energy Intelligence's Research & Advisory group include the energy transition, corporate strategy and competitor intelligence, oil and gas/LNG markets and aboveground risk. She also contributes to Competitive Intelligence Research by examining corporate strategies and investment strategies in this region. Prior to her current role in the Research & Advisory group, Amena was Energy Intelligence's Chief OPEC Correspondent and Dubai Deputy Bureau Chief for the past eight years. In that capacity, Amena received several international journalism awards for her work that covered energy news and analysis related to Saudi Arabia and other OPEC countries. In 2023, she received the OPEC award for best journalist, and in 2019, The International Association for Energy Economics gave her the award for Excellence in Written Journalism for covering the energy sector. Amena was also an Energy Correspondent for Reuters news agency for six years, posted in Dubai, Doha, and Riyadh, covering energy and political risk developments.

TOP 30 FEMALE ENERGY MARKET ANALYSTS

Dr. Carole Nakhle
Chief Executive Officer
Crystol Energy

Dr Carole is an Energy Economist, and has worked with oil and gas companies, governments, international organizations, academic institutions and think tanks globally. She is active on the Governing Board of the Natural Resource Governance Institute, and a regular contributor to Geopolitical Intelligence Services and the Executive Sessions on the Political Economy of Extractive Industries at Columbia University. She is involved in the OECD Policy Dialogue on Natural Resource-based Development and acts as a Visiting Lecturer at the Blavatnik School of Government at Oxford University, the University of Surrey, and Saint Joseph University (Beirut). Dr Nakhle is the author of two widely acclaimed books: Petroleum Taxation: Sharing the Wealth (2008) and Out of the Energy Labyrinth (2007). She is the director of 'Access for Women in Energy' and Executive Editor of Newsweek's special edition 'The Future of Innovation in the Oil and Gas Industry'.

TOP 30 FEMALE ENERGY MARKET ANALYSTS

Vandana Hari
Founder & Chief Executive Officer
Vanda Insights

Vandana provides global oil markets macro-analysis through her company, Vanda Insights. She is an analyst and a thought leader with over 25 years of experience providing intelligence on the energy markets to a wide range of stakeholders. Before launching Vanda Insights in 2016, Vandana served in leadership roles at S&P Global Commodity Insights (formerly known as Platts), a leading information agency on the energy, petrochemicals, metals, and agricultural markets. She was engaged in news reporting and price assessments, research, and analysis, as well as business strategy and stakeholder engagement. Vandana has a bachelor's degree in science from India's MD University and post-graduate diplomas in communication and social journalism. She is a regular speaker at energy conferences, writes a monthly column for the Nikkei Asian Review, and is extensively quoted by business media around the world. Vandana is also a frequent commentator on the energy markets for prominent national and international radio and television business channels.

TOP 30 FEMALE ENERGY MARKET ANALYSTS

Sara Akbar
Chairperson & CEO, OilServe, Kuwait & Non-
Executive Director, Petrofac

Sara has over 40 years of experience in the oil and gas industry with a unique insight into the Middle Eastern region. She speaks Arabic, French, English and Armenian.

TOP 30 FEMALE ENERGY MARKET ANALYSTS

Rachel Ziemba
Founder of Ziemba Insights, Adjunct Senior
Fellow, Energy, Economics, & Security
Program Center for a New American Security

Rachel is an Adjunct Senior Fellow at the Center for a New American Security (CNAS). Her research focuses on the interlinkages between economics, finance, and security issues. Her research topics include coercive economic policies such as sanctions, economic resilience and the role of state-owned investors including sovereign wealth funds. She has a particular interest in the macroeconomic and foreign policy of China and oil-exporting nations, including sovereign wealth management and energy-sector supply risks and resilience. She also does extensive work on global macroeconomic issues, including foreign-exchange reserve accumulation, economic imbalances and trade and investment policy.

TOP 30 FEMALE ENERGY MARKET ANALYSTS

Kate Dourian, FEI
MEES Contributing Editor & Non-Resident Fellow,
The Arab Gulf States Institute in Washington

Kate is a non-resident fellow at the Arab Gulf States Institute in Washington, a contributing editor at the Middle East Economic Survey, and a fellow at the Energy Institute. Previously she was the regional manager for the Middle East and Gulf states at the World Energy Council, as well as the programme officer for the Middle East and North Africa in the Global Energy Relations Division of the International Energy Agency since September 2015. Her role included building relationships between the IEA and the governments of several Middle East and North Africa countries, using the extensive contacts that she accumulated for three decades spent in several Middle Eastern and North African countries as a journalist and energy analyst. Dourian was actively involved in the discussions that led to Morocco becoming an IEA Association country and the joint work program for which she raised funds from IEA members. She also helped write and edit the Middle East and North Africa sections of several IEA publications and contributed to the supply section of the Oil Market Report. She made presentations on behalf of the IEA in various capitals, most recently at the IEF Ministerial in New Delhi in April 2018. Dourian is often consulted on Middle Eastern matters by banks, financial institutions, and oil and gas companies. She also served as the IEA's representative on the executive board of the International Energy Forum.

TOP 30 FEMALE ENERGY MARKET ANALYSTS

Serena Huang
Head of APAC Analysis
Vortexa

Serena is the Head of APAC Analysis at Vortexa and specialises in delivering cross-barrel insights combining fundamentals, flows and freight to provide a holistic view of the market. She leads a team of market and data analysts, championing the use of data analytics to derive advanced insights at scale. With over a decade of experience in the energy industry, Serena is known for her in-depth knowledge in supply-demand fundamentals, refining operations, and pricing arbitrage. Serena joined Vortexa from Wood Mackenzie, where she focused on Asia's crude and refined products balances, refinery benchmarking and pricing analysis. Prior to that, she served as a process engineer in ExxonMobil Asia Pacific. Serena's ability to synthesize complex market data into actionable insights positions her as a thought-leader to Vortexa's clients. She has also participated in numerous conferences across the region, including The Baltic Freight and Commodity Forum at the Singapore Maritime Week 2023, the Ocean Expo in Ningbo, China and the 27th Condensate & Naphtha Forum 2023 in Bali. Serena holds a double degree in Chemical Engineering and Business Administration from the National University of Singapore.

TOP 30 FEMALE ENERGY MARKET ANALYSTS
